Truth, Justice,  
Love, Family, Life

## School Vision and Mission

**F**aithfully following the teaching advocated by the Lord Jesus, our school has been upholding the mission of the founding group of the Chinese Sisters of the Immaculate Conception (C.I.C): "to go into all the world and preach the gospel to every creature" (Mark 16:15), in accordance with the spirit of Jesus' love and the Catholic education philosophy, to make an effort to educate the next generation.

Our school is dedicated to providing holistic education to help students develop spiritually, morally, intellectually,

physically, socially and artistically, so that they can treasure life and get spiritually and intellectually prepared for their future.

We are also committed to assisting students to develop independent and critical thinking and cultivate a sense of civic and social awareness so that they can exercise correct value judgement on social issues. It is hoped that they can make a contribution to society and serve all mankind, as well as understand Chinese culture and have a passion for life.

## Five core values of Catholic Education

*Truth, Justice, Love, Family, Life*

## Teacher Professional Training and Development

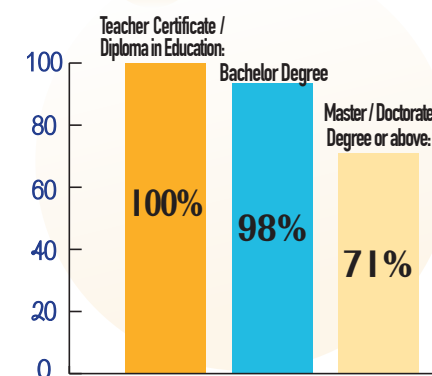

**H**aving rich teaching experiences, our teachers are patient and warm-hearted. Different teams cooperate on a regular basis for lesson preparations, peer observations and sharing among teachers and schools. Our school also organizes different kinds of courses, workshops and programs for teachers

both at school and outside the school to enable them to be familiar with the latest educational trends, classroom strategies and teaching effectiveness. Each year, there are at least three Staff Development Days for professional exchanges and collaboration.

## Using English as the Medium of Instruction

To enhance students' English proficiency through increasing their exposure to authentic English outside the class, hence widening their horizons and strengthening their general knowledge, a number of English activities are regularly held, including Peer Reading Programme, Guided Reading Programme, English Week, Cross-curricular English Fun Day and Study Tours to Australia and New Zealand. Led by our NET teacher, the English ambassadors organize different activities to stimulate students' interest in learning English and enhance their confidence in using English.

There are 5 classes in S1, one of which is using English as the medium of instruction (EMI). English Language, Mathematics, Science, History, Geography, Life and Society are taught in English. Meanwhile, a number of subjects offered in the junior secondary curriculum are taught with extended learning activities (ELA) in English to increase opportunities for students to use English as a medium and motivate them to acquire English skills for further studies, leisure activities and work.

## Class structures

There are 5 classes in S1, one of which is using English as the medium of instruction (EMI) and 4 classes in each level of S2 to S6. In senior secondary curriculum, four subjects are taught in English, namely Physics, Chemistry, Biology and Mathematics.

Subjects offered in junior secondary curriculum	Religious Studies*, Chinese Language, English Language, Mathematics*, Science*, Life and Society (S.1-S.2)*, Computer Literacy*, Putonghua, Chinese History, History, Visual Arts*, Technology and Living*, Physical Education*, Music*, Drama Education (S.1-S.2), Economics (S.3)*, Geography*, STEM
Subjects offered in S1 English Class using EMI	English Language, Mathematics, Science, History, Geography, Life and Society (Other subjects are taught in Chinese / Putonghua and with extended learning activities in English)
Compulsory subjects offered in senior secondary curriculum	Chinese, English, Mathematics (one of the classes is taught in English), Liberal Studies
Elective subjects offered in senior secondary curriculum	Ethics and Religious Studies, Chinese History, Economics, Visual Arts, Geography, Tourism and Hospitality Studies, Business, Accounting and Financial Studies, Technology and Living (Fashion Design), Music
Elective subjects offered in senior secondary curriculum using EMI	Physics, Chemistry, Biology
Other subjects in senior secondary curriculum	Physical Education, Religious Studies

## Academic Achievement

As a result of our teachers' and students' hard work, students performed satisfactorily in public examinations. Firstly, in the Diploma of Secondary Education Examination, 12 subjects' pass percentage was on par with the territory's average and some subjects reached positive value added scores of 7 to 9. A majority of subjects showed a rise in the pass percentage of 13% when compared with last year's data. Secondly, students' performance in the Territory System Assessment was encouraging. Almost all students reached the Basic Competency Level in Chinese, English and Mathematics with the passing percentage of the three subjects on par with the territory's average.

Since 2013, our school has had in total of 173 graduates pursuing a Bachelor's degree at local universities. In the academic year of 2017-2018, over 85% of S6 graduates were successfully enrolled in a Bachelor's degree

programme or an associate's degree / a Higher Diploma programme, mainly offered by the University of Hong Kong, the Chinese University of Hong Kong, the Hong Kong University of Science and Technology, the Hong Kong Polytechnic University and Hong Kong Baptist University.

Our students' academic achievements have been recognized by the awards they received. Our graduates won a number of prominent awards, including the Harvest Scholarship Award, the Link First Generation University Student Scholarship and the Outstanding Student Award in the Kwun Tong Outstanding Students Election. It is worth noting that one graduate was selected by the International Youth Programme, which nominated only 11 students to represent Hong Kong to go overseas for a cultural exchange, to visit Ireland.

In the academic year of 2017-2018, most subjects' pass percentage was on par with the territory's average

## Self-directed Learning

### Taking initiative for all stages of the learning process

We put emphasis on cultivating students' self-learning habits. It is believed that through teaching students note-taking skills, helping them set learning goals and asking them to keep reflective learning journals, students can be more organized, self-disciplined and responsible for their

learning. They are required to reflect on and evaluate their learning experience so as to gain a clearer view of their learning progress. Hence, their learning effectiveness will be enhanced.

### Junior Secondary Remedial and Enhancement Classes

To cater for learner diversity, after-school remedial and enhancement classes in Chinese, English and Mathematics are run for junior secondary students with different learning

abilities. It is believed that students' confidence and learning motivation can be boosted.

### Senior Secondary additional classes

We design an organised additional-class schedule for our senior secondary students. For secondary four and secondary five students, they need to attend additional classes after school from Tuesday to Thursday. Students

are divided into groups according to their abilities. To equip secondary six students with better exam skills, our school runs after-school classes and arrange students to take part in different mock exams organised outside school.

### Strengthening summative assessment

Our school aims to establish regular study habits for our students. Systematically, each subject takes turn to have a half-hour test every Monday morning. It is our hope

that this will provide our students a rigorous learning atmosphere to improve their academic performance.

The production of crystal glue

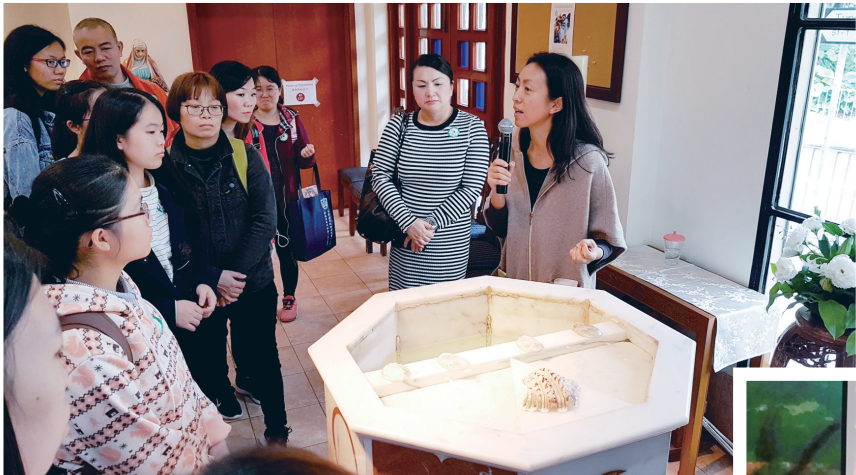

Learning Profile

# Religious Education

Our school puts emphasis on religious education, which aims to let students understand Jesus is our role model in practising love and serving others. With the objective of nurturing students to have a positive attitude to cherish life and admire Jesus, all subjects have incorporated the five core values of Catholic Education

into the formal school curriculum. It is hoped that students' spirituality will be fostered through various regular religious practices and activities, including morning prayers, prayer meetings, Bible study competitions, religious assemblies, visits to the home for the elderly and Caritas Charity Bazaars.

## Positive Attitudes and Values

Through a wide range of activities, our school aims at guiding students in their exploration for their strengths, unleashing their potentials, cultivating students' gratitude and enhancing their resilience so that

they can embrace challenges with grit and appreciate their own talents. Hence, they are able to develop positive attitudes and values to confront difficulties with hope.

Training Camp held by Counselling Team

Stress relief workshop held by Counselling Team

## Exchange Programmes

We strongly encourage our students to join different exchange programmes organised by our school or other parties. The programmes not only provide students with an opportunity to attend an overseas school, but also expose them to a different

culture and enrich their student life. Importantly, it extends their own personal competitiveness for future career development. Over the years, various exchange programmes have been established in China, Australia, New Zealand, South Korea etc.

Communicating with Australian Students

## Diversified Learning Activities

Our school provides more than 50 extra-curricular activities covering academic, interest, sports, art and religious areas in order to give our students the most comprehensive and the richest learning experience. We aim to extend classroom learning and let students have a balanced development on ability, knowledge, values and attitude so as to realise our

objective in education, i.e. education on spiritual, moral, intellectual, physical, social and aesthetic aspects. With a wide range of extra-curricular activities, students are able to grow and develop individual potential. Besides, students are strongly encouraged to take part in various social services, joint school activities and inter-school competitions.

## Social Service

Upholding the five core values of Catholic Education, our school emphasises and cultivates the spirit of love among students and society. Students are encouraged to participate in diverse community services

such as home visits to the elderly, charity sales and flag day. Throughout the activities, students are able to realise that the underprivileged minority needs more love and attention from our society as a whole.

## Home-School Cooperation

Different events like parents' talk, an annual dinner and DIY activities are held by the Parent Teacher Association (PTA) each year. It forms a parent-teacher network to facilitate the growth of the students in line with the School Mission. In order to promote the cooperation between parents and the school, Parents' Day is organised every year to invite parents to meet with

class teachers and learn about the performance of their children at school. Furthermore, class teachers maintain close contact with parents and collect their opinions about the school. Undeniably, the PTA serves as an important platform to provide two-way communication between the school and the parents.
